QACube/Fujitsu Teaming Agreement for QA Reporting

QA Analytics & Dashboards Empower Agile Software Testing

Following on from the successful EuroSTAR Conference, [QACube](#) and [Fujitsu](#) have now formed an alliance to engage new clients requiring innovative software testing and delivery solutions and expanding business for both parties involved.

The EuroSTAR Conference

The [EuroSTAR](#) software testing conference is an annual event bringing people and organizations involved in testing together from all over Europe. With over a thousand visitors in attendance, EuroSTAR is the biggest testing conference in Europe. The Conference provides a great opportunity for companies and customers to come together to discuss “all things” software testing. QACube were a contact that Fujitsu made at the last conference and had business discussions with through the event.

Who Are QACube?

QACube, the QA visual analytics company, is the leading provider of software quality visual analytics, dashboards and reporting for Global 2000 companies. The QA Platform empowers enterprises to deliver business innovation with lower risk and faster time to market. In addition, QACube delivers fully automated QA reporting that consolidates and aggregates data from an unlimited number of software testing tools and data sources with at-a-glance, visual analytics for key stakeholders.

The QA analytics are designed to empower agile testing with dynamic status information which highlights trends potential problems and bottlenecks affecting the software delivery process. QACube enables both agile testing teams and those using the waterfall approach to save tremendous time and effort and provides more control over the QA process. This improves both effectiveness and efficiency for in-house and outsourced software testing teams.

What's Next?

QACube are thrilled to announce the alliance with Fujitsu. “We selected Fujitsu as our strategic partner for software testing solutions which include our visual analytics and dashboards. Fujitsu has a proven methodology that enables innovation by achieving dramatic improvements in the maturity of software testing. This essential for keeping pace with Digitalization.” says Filip Milikic, CEO and Founder, QACube. According to Britta Steele, CMO, QACube, “Fujitsu’s proven abilities as a leading provider of global testing services, combined with the capabilities of QA Reporting Dashboards, provides customers with competitive advantage to deliver higher quality software in less time.”

Gary Davies, Head of Testing and Assurance at Fujitsu, states: “Effective immediately, Fujitsu’s world-renowned software testing methodology and process combined with QACube’s powerful QA reporting capabilities will enable Fujitsu’s customers to achieve software testing visibility and transparency for continuous testing improvements. At Fujitsu we feel that QACube are going to be a superb partner going forward in the business world and help us achieve what we want, a globally reliable and recognized testing service.”

Fujitsu is the leading Japanese information and communication technology (ICT) company, offering a full range of technology products, solutions and services. Approximately 159,000 Fujitsu people support customers in more than 100 countries. We use our experience and the power of ICT to shape the future of society with our customers. Fujitsu Limited (TSE: 6702) reported consolidated revenues of 4.8 trillion yen (US\$40 billion) for the fiscal year ended March 31, 2015. For more information, please see www.fujitsu.com

QACube helps drive competitive advantage with predictive QA visual analytics and dashboards across popular ALM/software testing tools such as: [Bugzilla](#), [CA Agile Central](#) (formerly Rally), [HP QC Enterprise](#), [JIRA](#), [Microsoft Excel](#), [Microsoft Team Foundation Server](#), [Redmine](#), [Tosca Testsuite](#), [Spira Test](#)...so you can deliver great software on time and with less risk. QACube is a preferred vendor of Fujitsu for Software Delivery Reporting. Banks, Financial Services, Insurance Companies, Telcos and others can achieve visibility and transparency for faster time-to-market with lower risk. For more information, please visit www.qacube.com and follow us on [LinkedIn](#), [Xing](#), [Facebook](#) and [Twitter](#).
